Houses the control units for lighting, HVAC and access-control systems together.

Reception & Common-Area Installations

Suited to high-traffic areas that call for a visually unobtrusive footprint.

DESCRIPTION

PRODUCT DETAIL

10U 19" Sloping Panel Control Cabinet

The 10U 19" Sloping Panel Control Cabinet is an industrial-grade steel enclosure that provides easy operator access and monitoring thanks to its sloped front-panel design.

It is ideal as a cabinet solution for network distribution applications suitable for 19" devices.

Compatible with VATPAN C-1557, this product is manufactured from durable 1311 quality galvanized steel, and its top section opens on a hinge to simplify device installation and maintenance.

The ventilation openings at the rear also contribute to internal air circulation.

It is compatible with 19"-wide devices and is particularly suitable for use in areas such as control panels, automation systems, CCTV recording systems and access-control devices.

Its snap-fit plastic carrying handles make it easy to transport.

This sloped cabinet can be placed on a desktop or on custom-made stands/support systems.

Manufactured by Vatpan, the leading brand in Rack Cabinet solutions.

Application Areas:

- Industrial control systems
- Security and CCTV applications
- Automation and panel mounting areas
- Test equipment enclosures
- R&D laboratories and custom device enclosures
