

Technical Specification Sheet

12U 600x120mm Wall-Mount Flush-Mounted FTTH Optical Network Termination Cabinet

SKU: FTTH-12U6012 · Brand: VATPAN · Office Enclosures

SPECIFICATIONS

U Height	12U
Width	600mm
Depth	120mm
Door Type	Perforated

WHERE IT'S USED

Small Business Network Points

A neat, compact setup for offices with a small number of active devices.

Building Automation Systems

Houses the control units for lighting, HVAC and access-control systems together.

Reception & Common-Area Installations

Suited to high-traffic areas that call for a visually unobtrusive footprint.

DESCRIPTION

PRODUCT DETAILS

The 12U 600x120mm Wall-Mounted Flush FTTH Optical Network Termination Cabinet is a cabinet solution specially designed for your fiber optic network needs, offering easy access and an aesthetic appearance, suitable for wall, floor, and ceiling mounting. Delivering high performance in FTTH projects, it is ideal for network distribution applications, compatible with 19" equipment. Its

strong and compact structure ensures secure connections and durability. Manufactured by **Vatpan**, the leading brand in **Rack Cabinet** solutions.

An FTTH (Fiber to the Home) cabinet is a specialized telecommunications cabinet type typically used in the FTTH infrastructures of internet service providers to distribute fiber optic cables and deliver high-speed internet connections to buildings or homes. These FTTH cabinets serve as distribution points, carrying fiber optic signals from a central point to the homes or workplaces of end users. Inside the FTTH cabinet are the technical components where fiber optic cables are connected, signals are routed, and, when needed, signal amplification is carried out. In addition, these FTTH cabinets are generally designed to be unaffected by weather conditions and are protected against external factors.
