DESCRIPTION

PRODUCT DETAILS

The 19" 48-Port Cat6 Patch Panel, an ideal solution for your rack cabinets, stands out with its superior performance and sturdy construction. As Vatpan, we combine reliability and quality — enjoy strengthening your network infrastructure with this product.

Technical Specifications:

48-Port Cat6 Connection Points: Gain the freedom to expand your network with a high-capacity 48-port design. The Cat6-standard connection points support high-speed data transmission.

19" Standard Compliant: The 19" standard size, which integrates seamlessly into your rack cabinets, simplifies installation and helps you use your space effectively.

Fully Populated Configuration: This patch panel features a fully populated configuration with 48 ports, making it an ideal choice for large network infrastructures.

High-Quality Material: Manufactured from quality materials for durability and long service life. This ensures reliable performance for many years

Advantages:

High Performance: The Cat6-standard connection points enable high-speed data transmission, boosting your network's performance.

Easy Installation: The 19" standard size allows for easy integration into your rack cabinets, speeding up the installation process.

Durability: Manufactured from quality materials, this patch panel stands out for its durability and offers a long-lasting solution.

Fully Populated Configuration: The fully populated configuration with 48 ports is ideal for large network infrastructures and provides more connection points.

As Vatpan, we offer you a reliable and effective solution with the 19" 48-Port Cat6 Patch Panel to strengthen your business's network infrastructure.
