

Technical Specification Sheet

200x250x200mm Surface-Mount Monoblock  
Stainless Steel Enclosure

SKU: **PTS2025** · Brand: **VATPAN** · Wall-Mount Stainless Steel Enclosures

SPECIFICATIONS

|           |             |
|-----------|-------------|
| Height    | 250mm       |
| Width     | 200mm       |
| Depth     | 200mm       |
| Door Type | Solid Steel |

WHERE IT'S USED

Food & Beverage Production

Stainless steel construction suits facilities with frequent washdowns and high hygiene standards.

Pharmaceutical & Chemical Industry

Used safely in environments demanding high resistance to chemical exposure and corrosion.

High-Humidity & Coastal Environments

Superior corrosion resistance for coastal facilities and other demanding conditions.

DESCRIPTION

PRODUCT DETAILS

200x250x200mm surface-mounted monoblock stainless enclosure, manufactured with a 304-grade chrome steel body for small-scale applications housing a single fuse/contactor group. The load-bearing top and bottom chassis has a monoblock welded structure; it offers a significantly longer service life than a standard cold-rolled (DKP) body in corrosive or humid environments.

**Vatpan** is the leading brand in rack cabinet and industrial enclosure solutions.

**MEASUREMENTS**

|                  |       |
|------------------|-------|
| Width            | 200mm |
| Height           | 250mm |
| Depth            | 200mm |
| Protection class | IP54  |

**MATERIALS & CARE**

|                                                                                                                       |
|-----------------------------------------------------------------------------------------------------------------------|
| <ul style="list-style-type: none"><li>• Monoblock body structure</li></ul>                                            |
| <ul style="list-style-type: none"><li>• Body 1mm and covers 1.5mm 304-grade chrome steel</li></ul>                    |
