

Technical Specification Sheet

6U 600x120mm Wall-Mount Flush-Mounted FTTH Optical Network Termination Cabinet

SKU: FTTH-6U6012 · Brand: VATPAN · Office Enclosures

SPECIFICATIONS

U Height	6U
Width	600mm
Depth	120mm
Door Type	Perforated

WHERE IT'S USED

Small Business Network Points

A neat, compact setup for offices with a small number of active devices.

Building Automation Systems

Houses the control units for lighting, HVAC and access-control systems together.

Reception & Common-Area Installations

Suited to high-traffic areas that call for a visually unobtrusive footprint.

DESCRIPTION

PRODUCT DETAIL

6U 600x120mm Wall-Mount Flush-Mounted FTTH Optical Network Termination Cabinet; a cabinet solution specifically designed for your fiber optic network solutions, offering easy access and an aesthetic appearance, suitable for wall, floor and ceiling mounting. Delivering high performance in FTTH projects and compatible with 19" devices, it is ideal for network distribution applications. Its

strong and compact structure provides secure connections and durability. Manufactured by **Vatpan**, the leading brand in **Rack Cabinet** solutions.

An FTTH (Fiber to the Home) cabinet is a special type of telecommunications cabinet generally used in the FTTH infrastructures of internet service providers to distribute fiber optic cables that deliver high-speed internet connections to buildings or homes. These FTTH cabinets serve as distribution points that carry fiber optic signals from a central location to the homes or workplaces of end users. Inside the FTTH cabinet are the technical components to which the fiber optic cables are connected, through which signals are routed, and where signal amplification is carried out when required. In addition, these FTTH cabinets are generally designed to be unaffected by weather conditions and are protected against external influences.

Contents and Maintenance
