

Technical Specification Sheet

BT350 Side-Mount Rack Cabinet Air Conditioner

SKU: BT350 · Brand: KLIMEXS · Air Conditioning Units

SPECIFICATIONS

Door Type	Perforated
-----------	------------

WHERE IT'S USED

Expanding Existing Cabinet Infrastructure

Easily added to existing cabinets as cable management, cooling or power needs grow.

Easier Maintenance & Service

Practical solutions that speed up technicians' day-to-day operations and maintenance work.

DESCRIPTION

PRODUCT DETAILS

Due to the heat generated by rack cabinets and enclosures overheating under excessive load, rack cabinet air conditioners are required to counter the anticipated amount of heat. For this purpose, rack cabinet air conditioners mounted on the door of the rack cabinet can be used; alternatively, if there is a location with a large number of enclosures, then the environment must be cooled and this cool air must be circulated inside the enclosures by means of the enclosures' fans. As summer approaches, the rising internal temperature of the enclosures increases significantly, depending also on the ambient temperature. As a result of this increase, production-disrupting downtimes inevitably occur. For this reason, air conditioning is the most ideal cooling system for server rooms and server cabinets with a high heat load. As the Vatpan family, this is a product you can confidently use for rack cabinet cooling.

Contents and Maintenance

Upright Type (Side-Door Mounting)

Digital Thermostat Controller
Easy Maintenance, Openable Cover
Stainless Steel – Galvanized Enclosure Options
Outdoor Enclosure
Class A Equipment (Danfoss-Ebmpapst)

Barcode BT350

MEASUREMENTS

Width	30cm
Height	55cm
Depth	21,5cm
Maximum Pressure	26 bar
Protection Class	IP54
Weight	23 kg
