

Technical Specification Sheet

Floor-Standing Base-Plated Enclosure
1700mm

SKU: **VTK170404** · Brand: **VATPAN** · Industrial Electrical Enclosures

SPECIFICATIONS

Door Type	Solid Steel
-----------	-------------

WHERE IT'S USED

Factory Production Lines

Protects PLCs, contactors and motor drives from harsh industrial conditions.

Industrial Park Distribution Rooms

Enables safe, standards-compliant configuration of main and sub electrical distribution.

Energy Monitoring & Control Systems

Keeps meters, relays and monitoring equipment organized and accessible in one place.

DESCRIPTION

PRODUCT DETAILS

The floor-standing enclosure with a base sheet, at a height of 1700mm, differs from the standard floor-standing enclosure in that it has a fully closed sheet-metal base at the bottom — forming an additional barrier against moisture or rodent entry from the floor. The doors, all supporting connection elements, and uprights are manufactured from 1.5 mm galvanized sheet steel; it provides protection against dust and dripping water at IP54 protection rating. The shorter body height is an advantage for technical rooms with low ceilings or enclosures with limited vertical space.

Vatpan is the leading brand of rack cabinet and industrial enclosure solutions.

MEASUREMENTS

Height	1700mm
Protection rating	IP54
Body/door sheet	1.5mm galvanized
Base	Closed sheet-metal base

MATERIALS & CARE

• Modular body structure with closed sheet-metal base	
• Door 1.5 mm cold-rolled steel sheet	
Uprights and horizontal connection parts	1.5mm galvanized
• Standard color RAL 7035 or optional color	
All supporting connection elements	1.5mm galvanized
• Please request a quote for assembled and custom enclosures.	
• IP 54 protection rating
