

Technical Specification Sheet

Floor-Standing Enclosure 2100mm

SKU: VMK210404 · Brand: VATPAN · Floor-Standing Electrical Enclosures

SPECIFICATIONS

Door Type	Solid Steel
-----------	-------------

WHERE IT'S USED

Factory Production Lines

Protects PLCs, contactors and motor drives from harsh industrial conditions.

Industrial Park Distribution Rooms

Enables safe, standards-compliant configuration of main and sub electrical distribution.

Energy Monitoring & Control Systems

Keeps meters, relays and monitoring equipment organized and accessible in one place.

DESCRIPTION

PRODUCT DETAILS

The floor-standing industrial enclosure has a modular body structure at a height of 2100mm. The doors, all supporting connection elements, uprights, and horizontal connection parts are manufactured from 1.5 mm galvanized sheet steel. It is designed for general-purpose indoor applications and provides protection against dust and dripping water at IP54 protection rating. The taller body height is preferred for large facilities that require multiple equipment levels to be housed within a single enclosure.

Vatpan is the leading brand of rack cabinet and industrial enclosure solutions.

MEASUREMENTS

Height	2100mm
Protection rating	IP54
Body/door sheet	1.5mm galvanized
