

Technical Specification Sheet

Floor-Standing Outdoor Enclosure 2000mm

SKU: DHK200404 · Brand: VATPAN · Industrial Electrical Enclosures

SPECIFICATIONS

Door Type	Solid Steel
-----------	-------------

WHERE IT'S USED

Factory Production Lines

Protects PLCs, contactors and motor drives from harsh industrial conditions.

Industrial Park Distribution Rooms

Enables safe, standards-compliant configuration of main and sub electrical distribution.

Energy Monitoring & Control Systems

Keeps meters, relays and monitoring equipment organized and accessible in one place.

DESCRIPTION

PRODUCT DETAILS

The floor-standing outdoor enclosure, at a height of 2000mm, is designed for outdoor use. The doors, all supporting connection elements, and uprights are manufactured from 1.5 mm sheet steel; with IP65 protection rating it is fully dust-tight and protected against water jets from every direction — one level above the IP54 rating of the standard indoor model. It protects the equipment against wind-borne dust and rainwater ingress in outdoor environments exposed to the elements.

Vatpan is the leading brand of rack cabinet and industrial enclosure solutions.

MEASUREMENTS

Height	2000mm
Protection rating	IP65

Body/door sheet	1.5mm steel
-----------------	-------------
