DESCRIPTION

PRODUCT DETAILS

If you are looking for solid and reliable mounting solutions for your 19" server cabinets and network infrastructure, the M6 Cage Nut and M6x15 Cross-Head Screw Set is exactly what you need. Designed specifically for mounting 19-inch rack-type devices, this set is ideal for telecommunications equipment, network gateways, servers and all your other devices requiring rack mounting.

Content and Product Features

Material Quality: M6x15 cross-head screws made from high-strength steel and galvanized steel cage nuts offer long-lasting use and excellent protection against corrosion.

Package Contents: 100 M6x15 cross-head screws and 100 M6 cage nuts guarantee sufficiency and easy access for your extensive projects.

Compatibility: This set is fully compatible with standard 19-inch rack cabinets and server enclosures, allowing you to mount various equipment seamlessly.

Easy Installation: The unique design of the cage nuts facilitates quick and secure installation, enabling you to complete your projects

on time and efficiently.

Ideal Areas of Use

This set is an indispensable product for IT professionals, network administrators, data center operators, and technology enthusiasts of all kinds. If you are looking for reliability and durability when mounting your 19-inch rack-type devices, the M6 Cage Nut and M6x15 Cross-Head Screw Set is your best choice.

Maintenance and Storage

For long-lasting use of the set, store it in a dry place away from moisture. Corrosion-resistant properties may diminish in humid environments. Check the tightness and condition of the mounting components regularly to continuously maintain the safety and stability of your equipment.
