DESCRIPTION

PRODUCT DETAILS

If you are looking for solid and reliable mounting solutions for your 19" server cabinets and network infrastructure, the M6 Cage Nut and M6*15 Pan-Head Screw Set is exactly what you need. Designed specifically for mounting 19-inch rack-type devices, this set is ideal for telecommunications equipment, network gateways, servers, and all other devices requiring rack mounting.

Contents and Product Features

- Material Quality: The M6*15 pan-head screws, made from high-strength steel, and the galvanized steel cage nuts offer long-lasting use and excellent protection against corrosion.
- Package Contents: 4 M6*15 pan-head screws and 4 M6 cage nuts guarantee sufficiency and easy access for your extensive projects.
- Compatibility: This set is fully compatible with standard 19-inch rack cabinets and server enclosures, allowing you to mount your various equipment seamlessly.
- Easy Installation: The unique design of the cage nuts facilitates fast and secure mounting, allowing you to complete your projects on time and efficiently.

Ideal Areas of Use

This set is an indispensable product for IT professionals, network administrators, data center operators, and all kinds of technology enthusiasts. If you are looking for reliability and durability when mounting your 19-inch rack-type devices, the M6 Cage Nut and

M6*15 Pan-Head Screw Set is your best choice.

Maintenance and Storage

For long-lasting use of the set, store it in a dry place away from moisture. Anti-corrosion properties may diminish in humid environments. Check the tightness and condition of the mounting hardware with regular inspections, thereby continuously maintaining the safety and stability of your equipment.
