

Technical Specification Sheet

Surface-Mount Monoblock Stainless Steel Enclosure

SKU: PTSSERIES · Brand: VATPAN · Monoblock Distribution Panels

WHERE IT'S USED

Factory Production Lines

Protects PLCs, contactors and motor drives from harsh industrial conditions.

Industrial Park Distribution Rooms

Enables safe, standards-compliant configuration of main and sub electrical distribution.

Energy Monitoring & Control Systems

Keeps meters, relays and monitoring equipment organized and accessible in one place.

DESCRIPTION

PRODUCT DETAILS

Surface-mounted monoblock stainless enclosure, with a monoblock welded structure on the supporting lower and upper chassis that increases the cabinet's rigidity and strength. The 304-grade chrome-steel body offers a much longer service life than a standard cold-rolled (DKP) body in humid/chemical environments — preferred for corrosive environments such as food facilities, treatment plants, building façades and coastal regions. This is the general model of the family with no specified dimensions; you can choose one of the fully dimensioned models below according to the exact size you need.

Vatpan, the leading brand in rack cabinet and industrial enclosure solutions.

MEASUREMENTS

Protection class	IP54
Body	1mm 304-grade chrome sheet
Doors	1,5mm 304-grade chrome sheet

MATERIALS & CARE

- Monoblock body construction
- Body 1mm and doors 1,5mm 304-grade chrome sheet
- Standard color RAL 7035 or selectable color
- All supporting connection elements are 1,5 mm 304-grade chrome sheet
- Please request a quote for assembled and custom enclosures.
- IP 54 protection class
